

STRASS® Swarovski® Crystal, Full Lead Crystal¹

We are pleased to offer STRASS® Swarovski® Crystal available in colors, which are popular in today's market; "Bordeaux", "Light Peridot", "Topaz" and "Golden Teak Effect". The "Golden Teak Effect" has a slightly sparkling light golden bronze effect whereas the other colors appear true in color with plenty of sparkling brilliance.

It only takes a minute to assemble the top bead to the body using your choice of colored STRASS® Crystal and gold or chrome STRASS® pinning materials. The results are vibrant STRASS® Crystals in colors, which may be used to beautifully enhance your design projects or create one-of-a-kind chandeliers.

- Beautiful sparkle and optic clarity
- Perfectly machine cut & polished lead crystal
- Brilliant light refraction and color play
- Invisible coating which repels dust
- Maximum rainbow play
